

Regensburg offers World Heritage sites and modern conference venues

IN THE UNESCO WORLD HERITAGE CITY OF REGENSBURG, the new "bleisure" trend - that is, the combination of business and leisure - has always been a way of life.

During the day, meetings take place; in the evening, people head out for dinner on the crystal ships, to a traditional tavern, or discover with a guided walking tour the medieval Old Town.

Here, 2,000 years of history meet a modern hub for business and science with conference expertise and more than 30 meeting and convention venues, such as the marinaforum Regensburg, as well as numerous new and well-established hotels, and the Includio inclusive hotel.

Thanks to short distances, business, leisure, and culture are just a stone's throw away from one another. This also applies to all local partners who have joined forces in the MICE-network at mice-in-regensburg.de.

Regensburg is also considered a pioneer in sustainable conference infrastructure, from its TourCert-certified destination to its award-winning sustainability concept for conferences.
